DESCRIPTION

TACTICAL MEDICAL WAIST BAG from RHINO RESCUE is engineered with end-user needs and skillsets in mind, delivering durability, versatility, mobility, and efficiency. Its medically curated supplies target penetrating trauma's "Lethal Triad"(Extremity Hemorrhage, Tension Pneumothorax, Airway Obstruction). Featuring a spacious main compartment and multiple attachment points, it maximizes storage while maintaining a compact profile. Multi-carry configurations include: waist pack, sling bag, 3-day assault pack attachment, and MOLLE-style webbing.

FEATURE

- ⊕ Versatile Carry Modes
- ⊕ Modular Component Design
- ⊕ Multi-Scene Compatibility

The configuration contained in the package
